Graeme Thornber

Web Developer and Software Engineer

HTML, CSS, Javascript, LAMP, Node, React, Vue, Angular, Git, API, CMS

⌖ New Zealand   ☎ +64 210 292 4529   ✉ thornberrypie@gmail.com

CAREER OVERVIEW

Since 2006 I've been crafting user interfaces with a variety of tech stacks from Flash, jQuery, Wordpress and Photoshop to the brave new worlds of Node.js and all the current flavors of front-end frameworks. For my next move I'd like to jump into something like Flutter, Django or Ruby on Rails, or perhaps something more technical like game development or GIS mapping.

SKILLS

The various tech stacks I've worked with are too numerous to list here so this is a summary of my strongest skills.

TECHNICAL

- HTML, CSS and preprocessors
- Javascript, ES6, React, Angular
- PHP, MySQL, OOP, CMS, MVC
- Linux, Nginx, Git, many CLI tools
- Design: Photoshop, Figma etc
- Planning, estimating, scoping
- Complex problem solving

PERSONAL

- Excellent communication skills
- Multilingual and multi-literate
- Guitar, singing, other instruments
- Acting, performing, improv theatre

RECENT EXPERIENCE

ReactJS Developer
Tourwriter | 2019 - 2023

- Adding many new features to a large React / Redux / Material-UI application.
- Building and maintaining a Wordpress plugin that connects with the React application.
- Senior Agile team working directly with stakeholders and training new staff.

PHP Developer
DNA Design | 2017 - 2018

- Building and maintaining several websites in Silverstripe CMS with a cross-functional Agile team; business.govt.nz, immigration.govt.nz.
- Working directly with some of New Zealand's largest organisations like Kiwirail and ACC.
- Carrying out SLA accessibility improvements on many MBIE government websites.
